

62FC Series 1/2" x 1/2" Tilt Channel Balance

Please
Note Height

Channel Depth
17/32"

Countersunk hole
and 62-689 screw
support are standard
for our 62FC series.

Channel Width
9/16"

Ordering Information

- 1) Measure metal channel length (Do not include any attached ends).
- 2) Identify number stamped on channel. (e.g., 21A, 24B, etc.)
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate balance end to be attached; add the appropriate suffix
-1 (60-518) or -5 (900-18354) after the part number and order accordingly.
- 5) If the letter "T" appears after the number stamped, it indicates a top sash balance;
when ordering, add the letter "T" at the end of our part number.

General Information

- 1) Please note that the 1/2" channel height is smaller than the usual 19/32" height on standard balances.
- 2) If metal channel length does not correspond with the number stamped on balance, consult your representative since your balance may be a special order.

End Brackets

Add suffix to complete part number.

Note: Old manufacturer (Jim Walters) of this series balance stamped it with a four digit number (e.g. 2130). These balances are no longer manufactured with that stamping. To identify your balance and match up properly with the new manufacturer's balances, you must take the following steps:

1. Measure exact length of channel.
2. Identify the weight range you require.
 - Weighing your sash is the only way to get the exact weight range required.
 - The old balance with the 4 digit number has a different weight range than the new balances.
 - Consult your account manager if you have any questions.
3. Select our corresponding part number from the chart.
4. Identify the appropriate balance end that needs to be attached.
