

62 SERIES CHANNEL BALANCES

1/2" TILT WINDOW CHANNEL BALANCE

Actually 5/8" But Considered 1/2" in the Trade

Ordering Information

- 1) Measure metal channel length (Do not include any attached ends.)
- 2) Check number stamped on channel: e.g., 2210, 22A, 2830 29C, etc.
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate end bracket to be attached from the illustrations shown, then add 1, 2, 3, or four to complete our part number.

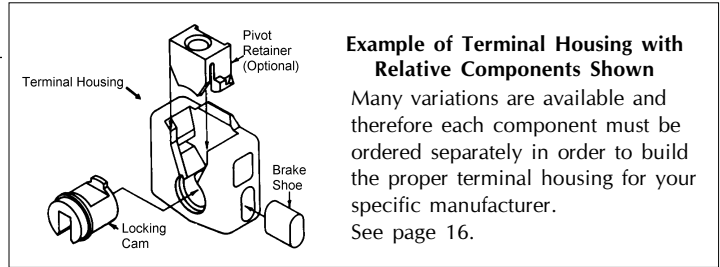

Note: If your balance has a rivet in the first hole at the top, order separately as part number 60-514A.

General Information

- 1) Any other number/letter variations that may be stamped on your balance should first be discussed with your representative to insure that your order will be filled correctly.

Example Ordering Chart

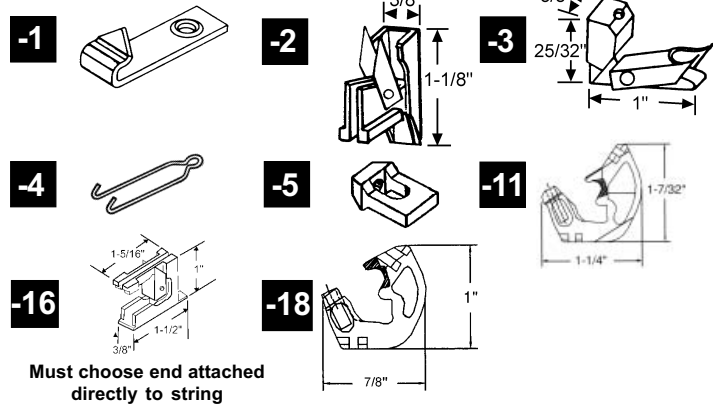

Channel Length	Number Stamped	Part Number	End Bracket	Complete Part Number
21"	2010	62-201-	1	62-201-1
21"	2010	62-201-	2	62-201-2
21"	2010	62-201-	3	62-201-3
21"	2010	62-201-	4	62-201-4
21"	2010	62-201-	5	62-201-5

Example of Terminal Housing with Relative Components Shown

Many variations are available and therefore each component must be ordered separately in order to build the proper terminal housing for your specific manufacturer. See page 16.

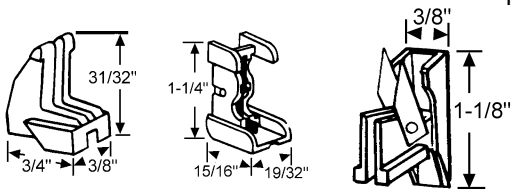

End Brackets Add number to part.

62A SERIES BALANCES FOR JAMBLINERS

1/2" RIBBED CHANNEL BALANCE FOR JAMBLINERS COMMONLY REFERED TO AS D70 BALANCES

ORDERING INFORMATION

- 1) Measure metal channel length. Do not include any attached ends.
- 2) Check number stamped on channel e.g. 16, 16HD, 16TG etc.
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate end bracket to be attached from illustration at right of chart. Select -2, -7, -8, -9, -12, -14, -17.
- 5) Note -2, -8, -12, are available in white & black. White will automatically be attached to regular balances; black will automatically be attached to HD, TG & XHD balances.

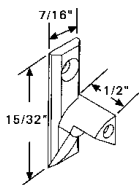

GENERAL INFORMATION

- 1) In order to remove D70 balances you must first remove all window trim and remove sash along with Jambliners. Forcing balances out of Jambliner pocket will most likely destroy vinyl extrusion! Balances can then be slid out of jambliner sleeve once parts are moved to the release position.
- 2) Balances can be special ordered in beige or white finishes
Contact your Account Manager for part numbers.

ORDERING INFORMATION

- 1) Measure metal channel length. Do not include any attached ends.
- 2) Check number stamped on channel e.g. 16, 16HD, 16TG etc.
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate locking terminal to be attached from illustrations shown and order accordingly.

GENERAL INFORMATION

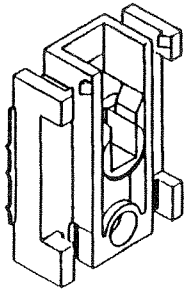

- 1) All 62C series balances will be supplied with either 62-529, 62-529B or 62-530 Locking Terminal attached.
 - 2) If ordering the 62-529 attached, please add -8 after our part number.
- If ordering the 62-529B attached, please add -9 after our part number. If ordering the 62-530 attached, please add 3 after our part number.

62DV SERIES DEVAC OVERHEAD CHANNEL BALANCES

Single Spring Channel - Aluminum 9/16" wide x 5/8" deep

Double Spring Channel - Steel 9/16" wide x 13/16" deep

ORDERING INFORMATION

- 1) Measure metal channel length.
- 2) Check number old or new number stamped on balance e.g. 111 or 1210
- 3) Select our corresponding part number from the chart below and order accordingly.

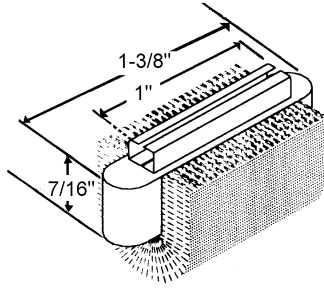

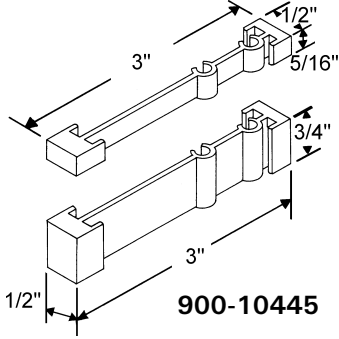

GENERAL INFORMATION

- 1) All balances now use Dacron cord. Stainless steel cable with copper hook terminal are no longer being produced.
- 2) It is important to note how much cord extends from your balance to the window sill (in inches) in order to insure the proper amount of cord travel. Our chart will indicate standard lengths but if additional inches of cord are required, add a plus (+) sign after the part number and indicate the number of extra inches of cord required.
- 3) When the letter "D" alone is stamped on your balance, it denotes a double spring. HD on the other hand simply denotes heavy duty.

1/2" x 1/2" TILT CHANNEL BALANCE - 62F SERIES

SASH SUPPORT SYSTEMS

If ordering with our 60-518 attached, add "-1" after part number

Please Note Height

Please specify if countersunk hole is required.

If ordering with our 900-18354 attached, add "-5" after part number

Ordering Information

- 1) Measure metal channel length (Do not include any attached ends.)
- 2) Check number stamped on channel: e.g., 2130, 2510, etc.
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate balance end to be attached add the appropriate -1 (60-518) or -5 (900-18354) after the part number and order accordingly.
- 5) If the letter "T" appears after the number stamped, it indicates a **Top Sash Balance**; when ordering add the letter "T" at the end of our part number.

General Information

- 1) Please note that the 1/2" channel height is smaller than the usual 19/32" height on standard balances.
- 2) If metal channel length does not correspond with the number stamped on balance, consult your representative since your balance may be a special order

For Balances Larger than Sizes Shown, Please Call Your Representative

Balances Stamped With Additional Numbers May Indicate Special Sash Weights.

Please Consult Your Account Manager.

62FC SERIES 1/2" X 1/2" TILT CHANNEL BALANCE

Countersunk hole is standard for our 62FC series.

Ordering Information

- 1) Measure metal channel length (Do not include any attached ends.)
- 2) Check number stamped on channel: e.g., 2130, 2510, etc.
- 3) Select our corresponding part number from the chart below.
- 4) Identify the appropriate balance end to be attached add the appropriate -1 (60-518) or -5 (900-18354) after the part number and order accordingly.
- 5) If the letter "T" appears after the number stamped, it indicates a **Top Sash Balance**; when ordering add the letter "T" at the end of our part number.

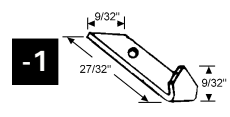

General Information

- 1) Please note that the 1/2" channel height is smaller than the usual 19/32" height on standard balances.
- 2) If metal channel length does not correspond with the number stamped on balance, consult your representative since your balance may be a special order

**Due to different manufacturers methods you may have same series balances with A, B, C, D, E, F, designations instead of numeric suffix 10, 20, 30, 35, 40. Also your balance length may be the same as first two digits of stamped number. Important to measure.*

OLD STYLE OBSOLETE
BALANCE AND RELATED
COMPONENTS ARE SHOWN
FOR
REFERENCE ONLY

New Style

Ordering Information

- 1) Measure channel length.
- 2) Check number stamped on balance.
- 3) Determine the clip to be attached to balance.
- 4) Customer must determine how much cord hangs down from the balance when the window is closed. If more cord than the standard lengths shown is required, specify number of extra inches required when ordering. If additional cord is required, add plus sign (+) followed by number of extra inches needed. e.g. if

ordering a 153-D balance with our 900-17773 clip attached and a 40" of cord is required. If ordering with our 900-17773 attached, add -6 after our part number. Example: 62-153D+10-6

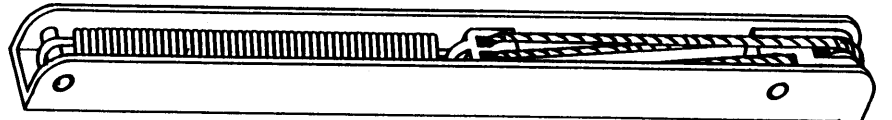

General Information

- 1) Balances are supplied with either one or two springs. If the number stamped on your balance is followed by the letter "D" it denotes a double spring.

LENGTH OF METAL CHANNEL	NUMBER STAMPED ON BALANCE	OUR PART NUMBER		WEIGHT RANGE (2 BALANCES)
13-1/4"	112	62V-112	Standard extended cord length from balance 20"	4 to 10 lbs.
13-1/4"	112	62V-112+	(Specify extra inches of cord required)	
13-1/4"	112-D	62V-112D	Standard extended cord length from balance 20"	10 to 18 lbs.
13-1/4"	112-D	62V-112D+	(Specify extra inches of cord required)	
16-1/4"	122	62V-122	Standard extended cord length from balance 25"	6 to 12 lbs.
16-1/4"	122	62V-122+	(Specify extra inches of cord required)	
16-1/4"	122-D	62V-122D	Standard extended cord length from balance 25"	12 to 22 lbs.
16-1/4"	122-D	62V-122D+	(Specify extra inches of cord required)	
19-3/4"	153	62V-153	Standard extended cord length from balance 30"	8 to 16 lbs.
19-3/4"	153	62V-153+	(Specify extra inches of cord required)	
19-3/4"	153-D	62V-153D	Standard extended cord length from balance 30"	16 to 28 lbs.
19-3/4"	153-D	62V-153D+	(Specify extra inches of cord required)	
23-3/4"	163	62V-163	Standard extended cord length from balance 36"	10 to 18 lbs.
23-3/4"	163	62V-163+	(Specify extra inches of cord required)	
23-3/4"	163-D	62V-163D	Standard extended cord length from balance 36"	18 to 32 lbs.
23-3/4"	163-D	62V-163D+	(Specify extra inches of cord required)	
28-1/4"	183	62V-183	Standard extended cord length from balance 40"	10 to 16 lbs.
28-1/4"	183	62V-183+	(Specify extra inches of cord required)	
28-1/4"	183-D	62V-183D	Standard extended cord length from balance 40"	16 to 34 lbs.
28-1/4"	183-D	62V-183D+	(Specify extra inches of cord required)

62W SERIES OVERHEAD BALANCES

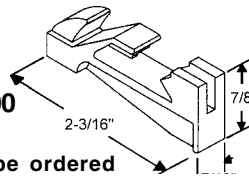

If ordering with our optional 60-518 clip attached, Please add "-1" after the part number.

If ordering with our optional 900-18354 clip attached, Please add "-5" after the part number.

62W-500
Black
Must be ordered separately

Standard cord length is determined from balance to hook at bottom of closed sash

Ordering Information

- 1) Measure metal channel length.
- 2) Check number stamped on balance.
- 3) Select our corresponding part number from the chart below and order accordingly
- 4) Standard clip shown will be attached unless otherwise specified.

General Information

- 1) Determine the balance clip to be attached and order accordingly: Standard, 60-518 or 900-18354.
- 2) If cord lengths are different from the standard lengths shown a plus sign (+) and the extra number of inches should be added after the part number.

Note: If your balance is stamped with the letters "DBS", refer to our DS balances, since their manufacturing specifications are the same.

Example Ordering Chart

Channel Length	Number Stamped	Part Number	Extra Cord (In Inches)	End Attached	Complete Part Number
