## **DAMAGED WINDOW/PATIO DOOR SCREENS DELIVERY**

### **TRUCK SHIPMENT:**

You must check the boxes thoroughly BEFORE you sign and follow the procedures below.

If there is visible damage to the entire shipment, you should refuse it.

If there is partial damage, you should sign the BOL (Bill of Lading) as 1 of 5 boxes damaged, 2 of 5 boxes damaged, etc. Then notify us immediately and save the box and materials. We will start the claim process. Take pictures of the damaged box(s) and send that to us so we can submit with the claim paperwork.

If there is concealed damage and you signed for it "clear", it becomes more of a problem area. Notify us immediately. We can initiate the claim BUT there is a good chance it won't be approved. Take pictures of the screens damaged inside, and save the box and materials.

### **SMALL PARCEL (UPS & FEDEX):**

Follow the same procedures as TRUCK SHIPMENT above.

If concealed damage, we will have the carrier do a "driver follow-up" to review the saved box and materials.

If it is left at the door unsigned and then you see damage(s) to it, you must notify us immediately. Save the box and materials. We will initiate the claim process by having the carrier do a "driver follow-up" to review the saved box and materials.
