## Profile Cylinder $90^{\circ}$ to $360^{\circ}$ Conversion Instructions*

Handle of excellence.
Recommended Tools and Accessories

$90^{\circ}$ RELEASE TOOL (provided)

2 mm or $5 / 64$ " HEX WRENCH (provided)

1. Remove the set screw as shown using the hex wrench.

2. Use the 90 degree release tool if the pin does not fall freely from the cylinder body in step 2 as shown.

3. Dump out the spring and pin after removing the set screw.

4. Recycle the set screw, spring, pin, and 90 degree release tool.

* For the new non-logo cylinders.
